

We are a leading consulting company offering comprehensive scientific and regulatory services with offices in Stade (DE), Heidelberg (DE), Valencia (ES) and home offices. We assist our clients in the registration of agrochemicals, biopesticides, biocides, feed additives and chemicals (REACH) in Europe and overseas. Our aim is to provide a smooth and successful registration process to ensure safety of these products for the environment and human health.

In order to strengthen our Toxicology team, we are looking for a qualified

## Senior Scientific Regulatory Expert – (m/f/d) Toxicology (Full-Time)

### Your tasks

- Prepare dossiers for the authorization of agrochemicals, biocides and other chemicals but also microbials within the European Union, according to current regulations
- Prepare safety evaluations of active substances and products and human exposure assessments according to EU and national requirements
- Review and assessment of toxicological data, including published literature
- Work in a team and support the section with high-level and most up to date scientific and regulatory toxicological expertise
- Design and monitor toxicological GLP studies with contract laboratories
- Prepare proposals for classification and labelling according to GHS and CLP
- Train and develop junior members of the toxicology team
- Participate in international conferences and workshops

### Desired skills and qualifications

- University degree (M.Sc., Ph.D.) in toxicology or life science [biology, chemistry, pharmacy or related disciplines]
- Advanced knowledge in chemical safety and human health risk assessment with at least 5 years of experience in regulatory toxicology focusing on agrochemicals (including biopesticides) and/or biocides
- Qualification as certified toxicology expert (e.g., European Registered Toxicologist or equivalent) is desirable
- Good knowledge of standard IT applications; knowledge of specialised platforms such as IUCLID
- Excellent communication skills, fluency in English; another additional European language would be beneficial
- Careful, reliable and swift working style; sense of responsibility
- Self-motivated, flexible, open and well organised personality; able to work under pressure
- Eager to learn and establish a good working relationship with colleagues, clients and regulatory authorities

### We offer

- Opportunity to work within a friendly and supportive environment of highly motivated professionals
- A well-structured induction plan and training program
- Working environment where excellence is recognised and encouraged
- Interdisciplinary and international global multi-lingual company
- Competitive salary
- Flexible working time and location to support your work-life balance
